

Mr. Chairman:

Is it possible that we might actually have a democracy in our country? This refusal to prohibit Sinclair Broadcasting from violating its license is telling us more and more about what is happening to our democracy. You, as a public servant, have a duty to forget that you are a Republican and remember that you are a citizen, employed by other citizens, to uphold the laws of our country.

Sinclair Broadcasting is engaging in election politics. This special on Senator Kerry is NOT news; it is opinion. Of course, if Sinclair also shows Fahrenheit 9/11, that might be considered fair. Oh, yeah, we have gutted the fairness doctrine also.
